

# **Manulife Scholarship in Actuarial Science**

**Department of Statistics  
University of Toronto**

**Award Value: \$4,500.00 annually**

The Manulife Actuarial Science Scholarship was established by Manulife Financial for the Department of Statistics, Faculty of Arts & Science, University of Toronto.

This scholarship is awarded to a student in the Actuarial Sciences specialist or major programme entering their third year of study in 2010-11. The award may be renewed for a second year provided a G.P.A. of 3.25 is maintained during the first year the award is granted. Students who have a strong passion for the Actuarial Science industry are encouraged to apply.

The scholarship will be awarded on the basis of academic merit, as well as demonstrated involvement in university/community activities. Manulife Financial will be meeting with the top five potential candidates who are nominated by the Department of Statistics based on the applications submitted.

The deadline to submit your application is **March 12, 2010**.

Please submit the completed application form with supporting materials, to:
